

## Learn – results and teacher feedback

First find “My grades” in the menu to the left. You then click on “My grades” and then you will see a list of assignments and your grades. If you have been given feedback a speech bubble will appear next to you grade. To see the feedback, simply click on the bubble.

Feedback can also be placed as comments in your uploaded text or as comments in separate attached documents - see image below. Please NOTE that feedback given as comments in the BOX view, i.e. directly in Learn, cannot be downloaded. Comments in a document uploaded by your teacher can be seen when you download the document.
