How do I copy a link in Fronter and paste it into a media player?

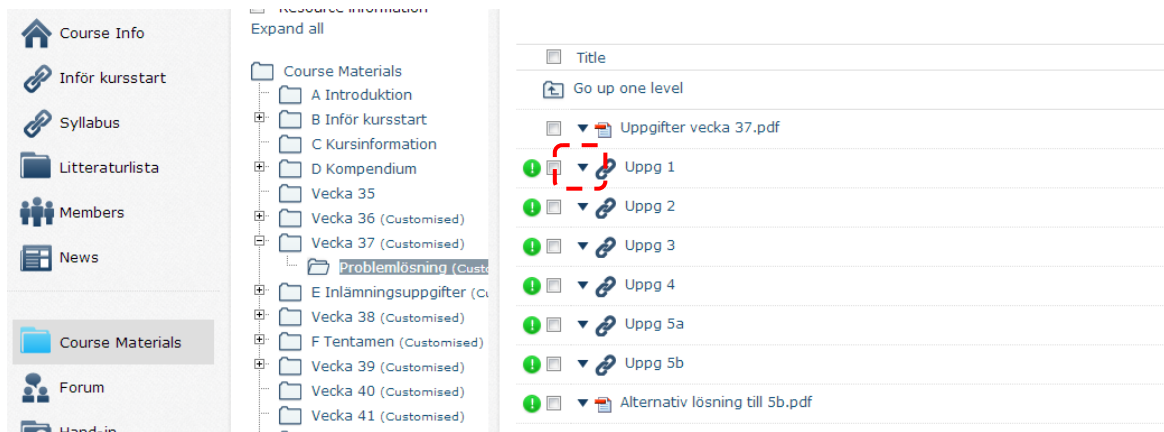

In this example we will use the free media player VLC. You can download it at:

<http://www.videolan.org/vlc/>

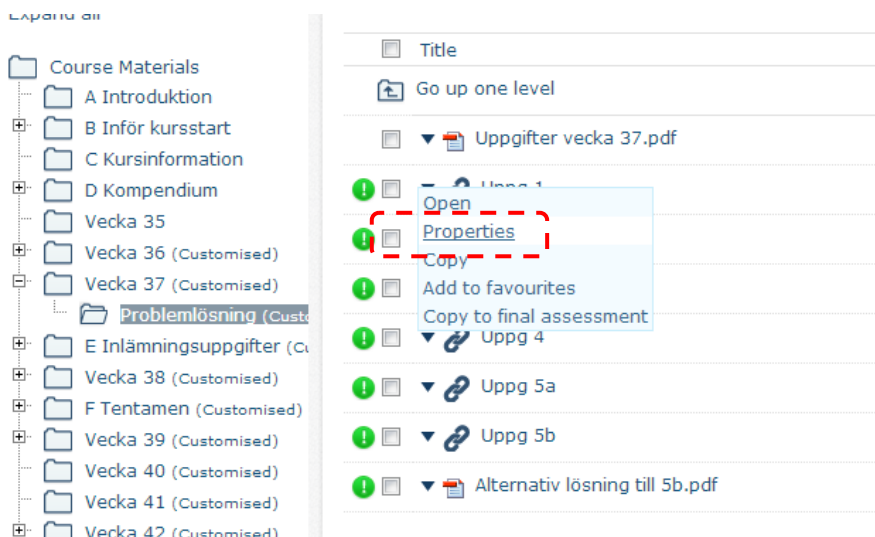

Start by logging in to Fronter and enter the course room where the recorded lecture is.

When you have accessed the proper folder you can see the link containing the lecture.

The screenshot shows the Fronter interface. On the left is a navigation menu with options like 'Course Info', 'Inför kursstart', 'Syllabus', 'Litteraturlista', 'Members', 'News', 'Course Materials', 'Forum', and 'Hand-in'. The main area displays a tree view of 'Course Materials' with folders for 'A Introduktion', 'B Inför kursstart', 'C Kursinformation', 'D Kompendium', 'Vecka 35', 'Vecka 36 (Customised)', 'Vecka 37 (Customised)', 'Problemlösning (Customised)', 'E Inlämningsuppgifter (Customised)', 'Vecka 38 (Customised)', 'F Tentamen (Customised)', 'Vecka 39 (Customised)', 'Vecka 40 (Customised)', and 'Vecka 41 (Customised)'. The 'Problemlösning (Customised)' folder is expanded, showing a list of assignments: 'Uppgifter vecka 37.pdf', 'Uppg 1', 'Uppg 2', 'Uppg 3', 'Uppg 4', 'Uppg 5a', 'Uppg 5b', and 'Alternativ lösning till 5b.pdf'. A red dashed box highlights the 'Uppg 1' entry, and a black arrow points to the left of its heading.

Click the black arrow to the left of the link heading and then select **“Properties”**.

This screenshot is a close-up of the 'Uppg 1' entry from the previous screenshot. A context menu is open over the entry, with options: 'Open', 'Properties', 'Copy', 'Add to favourites', and 'Copy to final assessment'. A red dashed box highlights the 'Properties' option, and a black arrow points to the left of the 'Uppg 1' heading.

Then you will see the following page with the link to the actual video. Select the link in the field **"URL"**, and then click Ctrl + C on your keyboard to copy the link.

URL:

mms://media.du.se/2010ht/matematik_maa/20100917_pia_del1.wmv

Title: Uppg 1

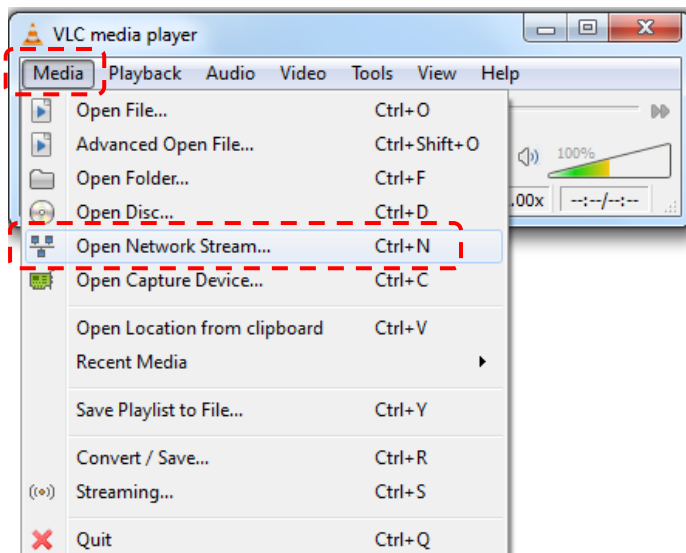

Description:

[Show/Hide details](#)

[Open in new window](#)

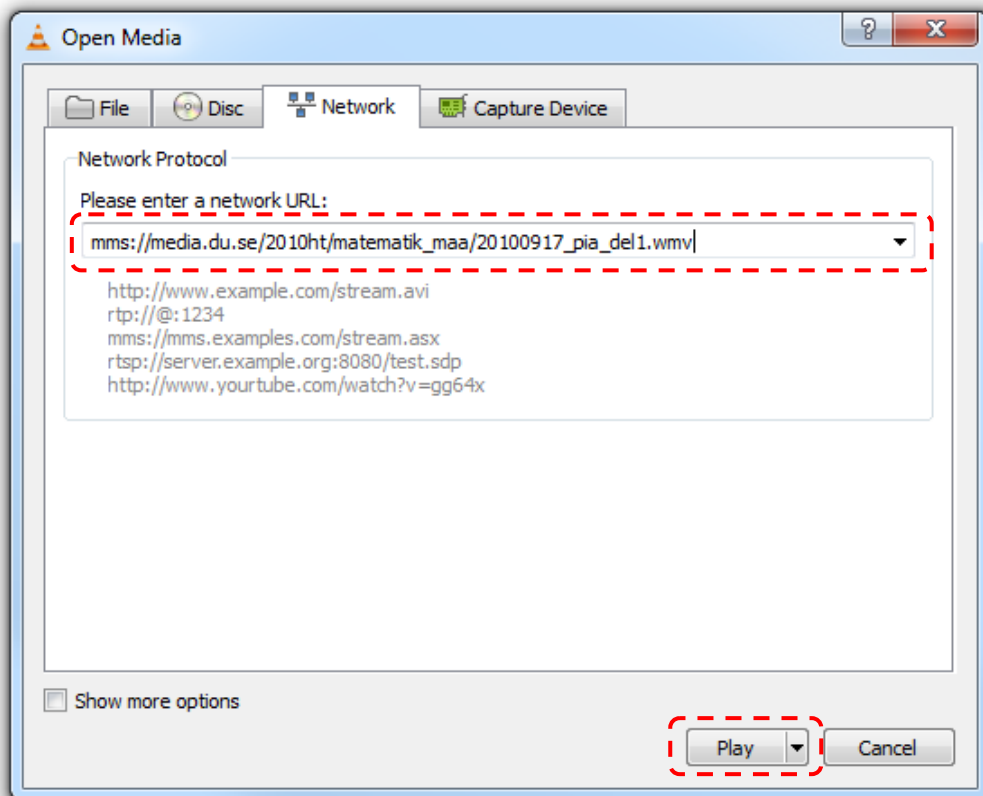

Open your mediaplayer, in this case we use VLC.

Go to **"Media"** menu, then select **"Open Network Stream"**.

Paste the link in the address field by pressing Ctrl + V on your keyboard.

Then press **"Play"** at the bottom right to start playback of the recorded lecture.
